

October 24, 2011

Everyone knows that it "takes a Village to raise a child". We know that it takes a community to support Mental Health.

At our most recent Mental Health Golf Tournament, we were honored to have your support. Thank you so much for everything you did to help raise money to support our consumers! Without you, we could not have been successful in providing monies to build facilities, provide medications, or do any of the other things we have done for our consumers.

We send our heartfelt thanks to you for your support of Northwest Alabama Mental Health Center.
